Teachings by Kathy L McFarland

1. The deep meaning of the root of trees is FOUNDATION.
2. The mysteries of Trees produce living WORKS that glorify the Lord.
3. If your foundation is made with The Foundation of Christ, then your tree will stand strong and be able to produce great works for the Lord.
4. If your foundation includes worldly ideals, self-improvement goals, carnal desires, self-focused pleasures, worship of idols or false gods, exposure of your soul to evil and witchcraft, pornographic pleasures, love of money, unproven conspiracy theories, neglect of the Word of God, refusal to follow Christ fully, more pride in your outer appearance than your inner being, etc., then your roots will not be strong enough to support your tree of spiritual works. Your tree will wither and die.
5. If your roots wither and your spiritual tree dies, you cannot produce works for the Lord that glorify the LORD God.
6. If your roots wither and your spiritual tree dies, then any works that are accomplished through your own efforts are called DEAD WORKS in Scripture. Dead Works do not receive reward from the LORD God and do not advance the Kingdom of Heaven.
7. If your faith is strong, without doubt, and you believe, you can even cast the biggest of non-producing, fake spiritual works into the sea. (Sea will be defined much later in our studies together).
8. If the first fruit, is holy, and the clay is holy, and the root is holy, then the branches will be holy.
